# DISCLAIMER STATEMENTS

This presentation relates to an entity that is directly involved in the United States cannabis industry insofar as its business activities include the cultivation, production, manufacturing and distribution of cannabis and cannabis-related products where use of cannabis is legal for medical and/or adult use purposes, as applicable.

While some states in the United States have authorized the use and sale of cannabis, it remains illegal under federal law and the approach to enforcement of U.S. federal laws against cannabis is subject to change. Because the Company engages in cannabis-related activities in the United States, it assumes certain risks due to conflicting state and federal laws. The federal law relating to cannabis could be enforced at any time and this would put the Company at risk of being prosecuted and having its assets seized.

For these reasons, the Company's investments in the United States cannabis market may subject the Company to heightened scrutiny by regulators, stock exchanges, clearing agencies and other U.S. and Canadian authorities. There can be no assurance that this heightened scrutiny will not in turn lead to the imposition of certain restrictions on the issuer's ability to operate in the United States or any other jurisdiction. There are a number of risks associated with the business of the Company.

# COMPANY OVERVIEW

1933 Industries is a consumer-packaged goods company with a portfolio of authentic, premium brands in the cannabis industry. Our humble journey began in Las Vegas as the first cannabis cultivator servicing the medicinal market.

# FINANCIAL HIGHLIGHTS

For the nine months ended April 30, 2023:

- Total revenues of \$13.3 million
  - Expenses \$3.9
  - Gross margin (\$1 million)
  - Retrofit and upgrade of the cultivation facility's irrigation piping system resulted in changes in the fair value of certain AMA inventories and non-normalized expenses incurred by infrastructure upgrades, impacting margins and net loss.
  - Net loss was \$4.2 of which \$2.5 million were non-cash charges from a net realizable value adjustment related to certain AMA inventories due to the renovation and upgrading of the Company's cultivation facility.
- 
- Positive Adjusted EBITDA income of \$0.1 million for two consecutive quarters (Q1 and Q2).
  - AMA branded products are regularly listed as the top selling cannabis products in Nevada.
  - CAPEX investments paying off with increased output and yield, supporting continued growth.
  - Wholesale flower pricing pressure continues to impact producers in Nevada. The Company's strategy is to offer competitive pricing, better quality, variety of product mix and volume of products, and continue to build strong relationships with key accounts.

# FORWARD-LOOKING STATEMENTS

Certain information contained in this presentation constitutes “forward-looking information” within the meaning of applicable Canadian securities legislation. The use of any of the words “anticipate”, “continue”, “estimate”, “intend”, “potential”, “expect”, “may”, “will”, “project”, “proposed”, “should”, “believe” and similar expressions are intended to identify forward-looking information. These statements are not guarantees of future performance and involve known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in such forward-looking information.

In addition, this presentation may contain forward-looking information attributed to third party industry sources. The Company believes that the expectations reflected in such forward-looking information are reasonable but no assurance can be given that these expectations will prove to be correct and such forward-looking information included in this presentation should not be unduly relied upon. Such information speaks only as of the date of this presentation or such other date indicated herein.

In particular, this presentation contains forward-looking information pertaining to the following:

- the Company’s intention to grow its business and operations;
- expectations with respect to future financial projections;
- the requirement for, and the Company’s ability to obtain, future funding on favourable terms or at all;
- market competition and agricultural advances of competitive products;
- the Company’s expectations regarding the timing for availability of the Company’s products and acceptance of its products by the market;
- the Company’s strategy to develop new products and to enhance the capabilities of existing products;
- the Company’s plans to market, sell and distribute its products; and
- the Company’s plans in respect of strategic partnerships for research and development.

In making the forward-looking statements included in this presentation, the Company has made various material assumptions, including but not limited to (i) obtaining necessary regulatory approvals; (ii) that regulatory requirements will be maintained; (iii) general business and economic conditions; (iv) the Company’s ability to successfully execute its plans and intentions; (v) the availability of financing on reasonable terms; (vi) the Company’s ability to attract and retain skilled staff; (vii) market competition; (viii) the products and services offered by the Company’s competitors; and (ix) that the Company’s current relationships with its suppliers, service providers and other third parties will be maintained.

The Company’s actual results could differ materially from those anticipated in such forward-looking information as a result of the risk factors set forth below and in the Company’s preliminary prospectus and the documents incorporated by reference within that preliminary prospectus:

- the extent of future losses;
- the actual financial position and results of operations of the Company may differ materially from the expectations of management;
- the ability to obtain the capital required to fund development and operations;
- the ability of the Company to effectively manage its growth and operations;
- the development and growth of the medical marijuana industry in general;
- the competition with the marijuana industry in general, which involves companies with higher capitalization, more experienced management or which may be more mature as a business;
- the ability to capitalize on changes to the marketplace;
- the ability to comply with applicable governmental regulations and standards;
- the ability to develop and commercialize medical cannabis and adult use cannabis in the United States;
- the ability to attract and retain skilled and experienced personnel;
- the impact of changes in the business strategies and development priorities of strategic partners;
- the impact of legislative changes to the medical cannabis and adult use cannabis regulatory process;
- general public acceptance of the marijuana industry;
- the impact of changes in the number of marijuana users in the United States;
- the yield from agricultural operations producing the Company’s products; and
- the ability to obtain legal protection and protect the Company’s intellectual property rights and not infringe on the intellectual property rights of others.

These factors are not, and should not be construed as being, exhaustive.

Information contained in forward-looking statements in this presentation is provided as of the date of this presentation, and the Company disclaims any obligation to update any forward-looking statements, whether as a result of new information or future events or results, except to the extent required by applicable securities laws. Accordingly, potential investors should not place undue reliance on forward-looking statements or the information contained in those statements.
